

# ON-PREMISE PBX CALL RECORDING

## Modern Call Recording for Modern Business

### Call Recording that Impacts Your Business, Not Your Bottom Line

Eliminate steep recording fees with CorvisaCloud's call recording with real-time audio searching and indexing. CorvisaCloud's secure and affordable cloud-based recording is ideal for compliance, quality control and employee training. Our per agent model eliminates the upfront hardware costs typically required for large volume storage of recordings, making it cost-effective for businesses of all sizes.

Finally, you can justify recording multiple departments in your company without hidden fees or upfront costs. With CorvisaCloud's on-premise PBX recording solution, you're no longer required to take all the risk and spend money upfront with zero flexibility.

#### CorvisaCloud's call recording provides:

#### SIGNIFICANT SAVINGS

At \$10 per agent per month, there's no hidden fees or upfront costs. Our monthly subscription service allows you to budget accordingly to ensure you only pay for what you use. It's that simple!

#### SCALE QUICKLY

Enjoy the freedom to scale up or down as your business needs change. Need to add more agents this month? No problem! We provide you with the flexibility to add or eliminate agents monthly so you no longer have to pay for unused seats.

#### SCREEN CAPTURE

Overlay audio recordings with video capture of an agent's screen to gain further insight into support techniques and improve training processes.

\* Additional fees may apply.

#### REAL TIME AUDIO SEARCHING

Search for key terms and phrases throughout all of your recordings. Plus, all calls are tagged with a time stamp, keyword and customer/agent information to make locating and reviewing records fast and easy.

\* Additional fees may apply.

#### MANAGE & MAINTAIN WITH EASE

CorvisaCloud does all the work for you! Focus on your business while we maintain and manage your recordings. Directly integrated with your reporting, your recordings can be generated alongside reports to deliver consolidated agent performance metrics.
